

Client: TruForm Compounds
bradley@truformcompounds.com

Sample received: **11/21/25**
Analysis conducted: **12/05/25**

Compound:	Tesamorelin (10 mg)	CAS:	218949-48-5
Batch/Lot #:	TS0251106	Formula:	C221H366N72O67S
Appearance:	White powder	Mol Wt:	5135.89 g/mol

Method: Qualitative and Quantitative chemical analysis by Ultra High Performance Liquid Chromatography with Mass Spectrometry

Pubchem CID: 16137828

Tesamorelin | C221H366N72O67S | CID 16137828

	Specification	Result	
Identity Test:	Tesamorelin	Tesamorelin	Conforms
Purity:	>99%	99.72%	Conforms

LC-MS Chromatogram: Retention Time and Peak Analysis
